# FINANCIAL AND COMMERCIAL.

FRIDAY, Nov. 8-6 P. M. The gold market was free from excitement to day and cominally steady, the opening and the closing trans-ctions having been at 138%, and the extreme range om this point to 139%. After the adjournment of the Board, however, the quointion advanced to 138% a 139, with sales at the latter price. There was an active borowing demand for coin from the bears, and leans were made without interest and at 2 per cent for borrowing, and 1, 2, 3, 4, 5 and 6 per cent respectively for carrying. supply of gold is so large that the speculators for a fall supply of gold is so large that the speculators for a fall supplyence no difficulty in borrowing all they require on terms favorable to themselves, as the foregoing figures denote. The full effect of a pacific settlement of the question and the disbursement of the November interest has now been felt, and the marke be steadying for a rise, the tendency in this direction being strengthened by the approaching meeting of Congress and the uncertain future which still hes before the country in relation to the reconstruction question and the national finances At the same time, the decline in the rates of foreign exchange during the week and the rapidity with which our exports of domestic produce are going forward are, of thomselves, adverse to an advance on purely commer-

ecday, although a mode atery good demand from stock courses was felt at the banks and among the private First class firms, however, found no difficulty in supplying their wants mainly at six per cent upon mixed collaterals, and this rate was the rule upon government collaterals. To borrowers in general the seven per cent, but the supply was in excess of and. The drain of currency from the West torards this centre continues on a light scale, but there is ight quickening of the current Westward which is in part due to the shipments for the purchase of exchange on England drawn against cotton. There is still considong the note brokers, owing to the embarrassments cantile community and the distrust of credits resulting therefrom among the money lenders. The ormer take a limited amount of the best grade of their class signatures have to submit to 8 a 10 per cent.

ock Exchange there is more disposition shown th or two, and the bull cliques appear to be ar their forces for a fresh movement. At present interest in it is so large that the deliveries have le with some little irregularity. The material are since the last panic; but, nevertheless, an up ement is not improbable, notwithstanding the any fresh support from outside sources. at has the power to put prices up or down, and ke, the result can be easily foreseen, provided there concert of action among the leading operors. A Wall street rise is, therefore, the thing looked r; but how far it will progress is entirely uncertain.

Government securities were very lightly dealt in at the counters of the leading dealers, but the market was steady except for ten-forty bonds, which advanced % a per cent in consequence of an anticipated improve at in the foreign demand for them. There is a gen re feit in the street to learn what Mr. McCullock ads to do with the twenty-eight millions of thes tiries have been addressed to him on the subject, to ne of which he returned the following reply, from which it is to be inferred that his recent private sales of

An important dry goods fallure in this city was an nounced this morning.

A Chicago journal of Wednesday remarks of loca

monetary affairs:monotary affairs:—
The discount bouses report no material chance in the aituation. Grain borrowers find the market exceedingly close, but shippers asperience no difficulty in chaining the currency on short time paper against car-one. There is an increasing demand from the packers, but as their wants have been anticipated they mest with no trouble in obtaining all their requirements.

Exchange was again close, with sales from bank to bank at 25c, a 30c, premium. The counter rates are unchanged.

A Cincinnati paper of the same date observes:-

A Ciocinnati paper of the same date observes:—

The money market continues in the same atrigent condition which has characterized it for many days. The bankers have enough to do to supply their own depositors, and are still taking satisfactory paper at 8 a 10 per cent from them; but in the open market first class signatures can be had at 12 a 18 per cent, and the supply of money is not equal to the demand at these rates. There is sise an active demand for money on call, and considerable more is being loaned in this way than awand at 10 per cent on approved collatersis. The supply of exchange is better, the receipts from the country and neighboring cities being large, and the market is not as firm, although rates remain steady, at par buying and and 50 cents premium selling.

COUNTY BOARD OF CANVASSERS.—The County Board of

Canvassers met yesterday afternoon, but all the returns not being presented, the Board adjourned until ten o'clock this morning. ARREST FOR BURGLARY.—Stephen Baker (colored) and

Trenton.
IMPORTANT TO RAHLHOAD PASSENGERS AND JUSTICES OF THE PRACE.-In the Supreme Court on Thursday the law students' wing roce examination terminated favorably, admitting eight candidates to practice at the bar as counsellors and sixteen as attorneys. The successful

law students' view roce examination terminated favorably, admitting eight candidates to practice at the bar as counsellors and sixteen as attorneys. The successful young gentlemen were accordingly sworn in yesterday. One of the principal cases for the decision of the court yesterday concerned the sail of Tuckarman & Co. vs. Stephenn and others, Transportation Company. In November, 1865, the plaintiffs entered into a contract with the defendants to transport two hundred tone of fron from Newark to New York, and to be delivered there, On the voyage up the nudson the vessel foundered, and the fron was never shipped to its covenanted destination. The Court maintained that if the foundering of the vessel was attributable to the perils of the sea or atmospheric inclementates the defendants were irresponsible; but the testimony in this case proved that the weather and sea were favorable, and of the vessels in tow with the one in question no other austained any accident on this particular night. The boat must not, therefore, have been examorthy, and consequently the plaintiffs were entitled to a verdick.

Another interesting case of appeal to this Court, implicating the New Jersay Railroad Corporation, was adjudicated upon. One william Campbell purchases an excursion ticket from New Brunswick to New York, returning the same day. The passenger lailed to return within the seame day. The passenger lailed to return within the specified time, but on his going back presented the excursion ticket, This the mileay officials refused at ungenuine, and on arriving a Newark Campbell was peremptorily told that if he did not pay his fare or show a legitimate ticket he should leave the care. He refused to comply and was forcibly expelled at the depot. After his expulsion he exhibited a genuine ticket which has also behamed in New York, but the agend denied him re-admission, as he could not say but that the other passengers would be subjected to similar disurbance by his presence again. Campbell accordingly instituted legal proceeding

A Showman Murdered.

[From the Memphis Avalanche, Nov. 5.7]

Last night, about eight o'clock, another of those fearful episodes in the history of our city took place on Jefferson street, hetween Main and Front streets, near the Empire saloon and restaurant. It appears that a party of showmen lately arrived on the Lizzie Gill from St. Leuis, attached to Ames' New Orleans menagerie, and ware in the saloon drinking. In company with them were several other men residing in this city. They were drinking rather heavily, but no ill feelings seemed to exist among the party, as no harsh language had passed between them. One of the number invited the murdered man out of doors, apparently for the purpose of conversation. Scarcely had they reached the door when the detonation of a pistol was heard, and another murder had been committed in Memphis. The man shot was named John Prentice, but he was most commonly called "Aleck" by his friends, and is represented as a quiet man. He was shot in the left broast, directly through the heart, the ball ranging upward. He dropped immediately and died without a groan. He was a aptive of Prescott, Canada West, was about thirty-eight, years of age, and was a widower, leaving no

family except a couple of unmarried sisters residfamily except a couple of unmarried sisters residing in Chicago, named facretia and Mary Frentice,
who were dependent upon him for a living. Frentice was a shoemaker by trade, but has for some
years followed the calling of a showman. About
one o'clock the jury of inquest as-embled and proneeded to the examination of witnesses. The
main points in their evidence went no further than
hie facts we have stated. A great deal of freelevant testinony was introduced, but at three o'clock
this morning the jury had not concluded on a
verdict.

# A SINGULAR BANK BOSBERY.

A Safe Carried Off and Riffed.

A Single Carried Off and Riffed.

[From the Peeris, it!, Democrat, Nov. 5.]

For some time past Messers. Pettis & Ingalls, of Tremont. Taxwell count? have been doing a banking business, and have become the depositories of the surrounding business men and farmers. They had established themselves in a snag banking house, with a fire-proof vanit, and deemed that they were safe from the elements or burglars. Within the vault was a large safe, and within that a steel bhrglar-proof case weighing four or live hundred pounds, which it was deemed impossible for any one to break into. On Friday morning hast an early riser was passing by the bank and noticed the door standing ajar, an indubitable evidence that a burglary had been committed. The proprietors of the establishment were notified, and on their arrival at the scene of action, an examination was made, and it was found that the outside door of the building had been broken open; the door of the vault was cut through, the safe blown to pieces and the steel case carried away entirely. So far as known, all of this work had been done without alarming anyone. It is probable that the burglars arranged their powder in the safe and closed the door of the wault before they ignited it, thus stilling the noise made by the explosion. The safe contained from \$100,000 to \$150,000 in bonds, notes and cash. The bonds belonged principally to people in moderate circumstances and were in the nature of special deposits, so Mesars. Pettis & Ingalls will not be responsible for them. The amount of money in the safe belonging to the owners was not large, as they had fortunately made remittances before the burglary was committed, and the greater portion of the loss was in bonds of various kinds.

The three for anyone of special deposits, as Mesars, Pettis & Ingalls will not be responsible for them. The amount of money in the safe belonging to the owners was not large, as they had fortunately made remittances before the burglary was committed, and the greater portion of the loss was in bond

TOO LATE FOR CLASSIFICATION.

In the Hours of our Harpiness and disabled a perify let us remember the unfortunate and disabled actiens who saved us a country and a nationality "Limois. Grand popular movement to erect the Cettysourg Asylum for invalid Soldiers, under a Special Charter from the State of Pennsylvania, passed March 5, 1957. An appead to the American people. The object of this association is to provide, by public exertion, a National Home for our Disabled Soldiers, to creat an asylum for those who, in their patriolism, have served their country at the expense of their health and happiness; who, in the basile for the sational Home for our Disabled Soldiers, to creat an asylum for the basile of working for their own maintenance. France has her Hotel des favalles, where rest the ashes of the great Napoleon; Kingland her Greenwich and Chelca Hospitals, the former being one of the finest architectural structures ever devote to charity. Russia, Prussia, and in fact searly all European countries have magnificent retreats for the unfortunate country poor house for her expedied and sick soldiers but the country poor house for the sidewaits of her crowded cities. These noble patriots left happy homes to save our need to redeem those pictors left happy homes to save our need to redeem those pictors of their sacrifices—we must not be recreamed to our obligations. Let us each devote but a single dollar to this purpose, and the Gettysburg Asylum will afford the soldiers a home and our country will be hose over the noble matitution. The land has been purchased by this association, and \$10,000 have aircady been paid the second of the sacrifices—we must not be recreamed to an object of the use of the former of the post cities as directors—bu
